

## Environmental Policy Statement

It is the policy of the Company that we will actively seek to minimise the impact of our operations on the environment. To achieve, this the Company will encourage all employees to engage with active support for all environmental responsibilities.

This commitment extends to ensure that the food we produce is safe and we encourage our customers to make healthy choices.

The Company is committed to ensuring the following areas are monitored and evaluated internally:

- Waste Streams
- Recyclable Waste
- Pollution including Noise, Water and Emissions
- Energy and Climate
- Emergency preparedness and response procedures
- Business sustainability

To ensure effective monitoring and evaluation is completed throughout the year, the following will be implemented:

- Measuring the company's impact on the environment and set targets for ongoing improvement
- Working with our customers and suppliers to ensure that the supply chain also works to evaluate and reduce
- Work towards a recognised accredited Environmental Management System

This policy will be reviewed annually as a minimum and revised whenever considered necessary.
